

The Manchester & Salford family history forum

These are the burial records for German service men who died here in Manchester. They were originally buried in Southern cemetery, Manchester but removed and reburied in Cannock Chase military cemetery, Staffordshire in June 1962. This document has been compiled by the members of the Manchester & Salford family history forum. Special credit must go to " Loes " for her contribution with the research of the burial records and translations and would not have been completed without her great effort.
